Laurel and Gail,

I'm already registered in the Max.Gov system. My handle is my email address. Please advise as to how best to access the documents.

Hi George

Glad you can review.

I don't know if anyone has gotten back to you, so I thought I'd check in and see if you have registered in the past at www.max.gov, that's where the document is located. If not, let Laurel Dygowski and Gail Fallon know when you are registered and one of them will give you access to the documents for this rulemaking.

Also, I'm sure someone from the Region will let you know when the modeling section is ready for your review....not quite yet.

Thanks,

Sara L. Laumann

Gail,

I would be the best point of contact whenever the RTC is ready for review. I may have a few

others in our group look at / provide feedback for certain comments, as appropriate. Given all of the interactions with Regions 6 and 9 on some of the modeling issues/details, are they going to see a copy of the RTC during the internal final review process?

George, Tyler,

Can we get someone from your group to review the modeling response to comments for the WY regional haze FIP? We can highlight specific comments for you that need review. We have short court ordered deadline, Laurel can confirm the date, but I think we would want your input within the next week.

Thanks,

Gail

Is there a HQ modeler lined up to review the modeling section? Do we need to find one? Looks to me like some unique statements we are making for the first time in the RTC, and consistent with our practice in the legal section, we've identified OGC experts to review those sections.
